

Goal: Design a one-page portfolio website.

NAVIGATION

Background color: white or similar to white

Position: sticky, always visible

Text color: TBD

Links:

- Home - #home
- About - #about
- Skills - #skills
- Portfolio - #portfolio
- Resume – link to a pdf file
- Contact - #contact

HEADER (#about)

Background: Solid color background or hero image.

About box: contains about blurb text

opacity: 80%;

color: black or similar color;

color: white;

Text content: Delinda Frazier, Front-end Web Developer, Web Producer

color: white;

About box text: TBD (something fantastic!)

SECTION (#skills)

Background color: white or similar to white

Section title: *Skills*

centered;

Content: Visualization of skill set. Possibilities include using icons to represent software I use; or graphic made with resume viz. tool like visualize.me or re.vu. Or if feeling really ambitious try to code something that would be interactive.

SECTION (#portfolio)

Background color: solid color

Section title: *Recent Works*
centered;

Secondary Navigation Links: Web Development, Content Management, Multimedia

Concept: Works will be represented as square images and categorized according to one of the secondary navigation links. Works will filter when one of the links is clicked.

Inspiration website: demo.yoarts.com/start/index.html. See recent works section.

SECTION (#contact)

Background color: white or similar to white

Section title: *Find Me*
centered;

Content: Icons of the following sites: Github, Code Pen, Twitter, LinkedIn, Instagram

Inspiration: Free icons available at flaticon.com

Footer

Background color: Black or dark color

Content: Copyright notice; email link or contact form
color: white;
